

# City of Dallas Urban Forest Advisory Committee

## INFORMATION BULLETIN

### THE CHALLENGE

Is it time for your neighborhood to organize a tree planting program in your community?

Trees you plant will contribute to cleaner air, cooler temperatures, beautification of your neighborhood, add value to your home and are a gift to be enjoyed by present and future generations.

In many areas of the City a great number of trees planted earlier by developers and prior owners have been lost due to drought, storm damage or simply completed their full life cycle. Walking around your neighborhood, do you see areas where street trees have been lost, medians in need of planting and neighbors who are concerned but don't know how to begin? If so -- **READ ON!**

### THE SOLUTION

In recognition of the many benefits trees provide the City of Dallas created two (2) programs to provide trees FREE for neighborhood plantings: 1) MOWmentum and 2) Reforestation Fund.

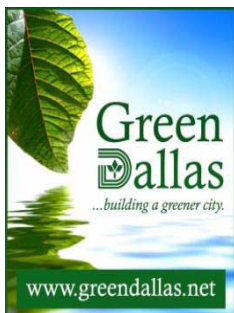

The **Urban Forest Advisory Committee** (UFAC), a City of Dallas Committee comprised of volunteers, is available to provide advice and assistance to neighborhood associations and groups interested in organizing tree planting events that qualify for free trees that may be provided through the City of Dallas **MOWmentum** and/or the **Reforestation Fund**.

Trees from these programs are targeted for planting in City of Dallas street medians and in the "parkway", which in most neighborhoods is the strip of grassy area between the sidewalk and the street.

### THE RESOURCES

You may contact **UFAC** for additional information about planting trees and learn more about these programs at [www.DallasTrees.org](http://www.DallasTrees.org).

Or you may obtain the **2012 Urban Forest Reforestation Program Brochure** and **Group Tree Planting Application** at [www.dallascityhall.com/arborist/fund.html](http://www.dallascityhall.com/arborist/fund.html) .

To **APPLY** for a median planting program or to **INQUIRE** about the availability of specific trees, contact the **City of Dallas Arborist** at 214-948-4117 or the **City of Dallas City Forester** at 214-670-1509.
